"Friends, we have here today the

We read that each Senator costs

above the \$100,000 salary is prob-

We imagine a lot of Italian

Toys that are made of metal, or

And from their value as play

toys which are made of wood, and
other toys which may aid in the
development of the child's practical

WATCHING THE PAPERS
Administration officials in Wash-

a government clipping bureau,

fifty papers are being sent to read

Everything that refers to the
activities of the government, whether
